Car Designer, Bryan Thompson fulfills the wishes of moms, commuters, and multi-taskers who are looking for ways to makeover SUVs, mini-vans, and trucks to help them in their daily lives..

Bryan Thompson hits the road to hear their stories and gripes, and what they would do if they could make their cars to work for them.

Bryan listens to their stories, becomes the fly-on-the-wall in the home and in the car and then gets down to business redesigning the interior or exterior, revealing a car that they never thought was possible.

Traffic and long commutes have driven people to rig up offices, game consoles, snack bars, and make-up stations. It's time for the Car Genie to remove the duct tape and make it real.
