CAREER SUMMARY

Bryan Thompson is a recognized designer with major credits in automobiles, media sets, aviation, interior, and furniture design. For over 15 years, Bryan has played a major role in the automotive industry designing for companies including Nissan, Peugeot, Honda, Subaru and Volvo/Mack Trucks.

Bryan has also created production and exploratory designs for Airstream, Embraer Executive Jets, Samsonite luggage and a series of Nissan concept furnishings and micro living spaces. Bryan's media project design work includes: Levis, multiple Katy Perry music videos, and car commercials for Ford.

Bryan is an experienced television talent in non-scripted series production, and competed on Tru TV's "Motor City Masters" reality series which resulted in a design scholarship for automotive design students, and has appeared on ABC's "Good Morning America."

Bryan is a popular industry panelist and a frequent speaker on the design process for university and college students.
